Dear St. Joseph Catholic School Families,

As we continue preparing for having all students return to campus, we are working on our very many protocols for ensuring the health and safety of all of our community.

We have a new responsibility this year to be ready to provide general student health information to the Pima County Health Department. **With the exception of a diagnosed case of Covid 19 or other highly infectious disease, names of children will be kept confidential.** To this end, we are standardizing how to report an absence. **Please use the script provided in email last week when you call or email** the Front Office or a teacher in the morning to report an absence. Also, please CC any email regarding an absence to **Mrs. Heintz**

at jheintz@stjosephstucsonaz.org Please try to contact the school before 9:00 AM. If information is missing, you may receive a call. If your child is absent and we haven't heard from you, you will be called. Please know, all of this is for the wellbeing of all of our school.

We continue to monitor the Pima County Health Department information and will keep you updated.

I have a very open door policy. Never hesitate to call, email, or stop by my office.

Wishing you peace and joy,

Kathy Van Loan, Principal

As our children spend more time on the computer, here are some resources provided to us for internet safety.

KidSmartz is a child safety program that educates families about preventing abduction and empowers kids in grades K-5 to practice safer behaviors. This program offers resources to help parents, caregivers, and teachers protect kids by teaching and practicing the 4 Rules of Personal Safety using tips, printable activities, quizzes, articles, music, videos, and more. ConnectSafely is a Silicon Valley, California-based nonprofit organization dedicated to educating users of connected technology about safety, privacy and security. Here you'll find research-based safety tips, parents' guidebooks, advice, news and commentary on all aspects of tech use and policy. [Connect Safely](#)

Enough Is Enough® understands that Internet safety is a shared responsibility between the public, the Internet industry, and the legal community. However, parents remain the 'first line of defense' in protecting their children against Internet safety dangers. As the nation's leading Internet safety organization since 1994, EIE has responded to this call for action by creating **Internet Safety 101SM**, in partnership with the U.S. Department of Justice. Through the **Internet Safety 101SM** program, EIE strives to educate and empower parents, educators and other caring adults with the information they need to effectively protect children from Internet dangers. Bark provides an affordable, award-winning dashboard which proactively monitors text messages, YouTube, emails, and 30+ different social networks for potential safety concerns, so busy parents can save time and gain peace of mind. [Bark](#)

the school does not endorse these sites; they are provided as a resource for parents

Joy is prayer - Joy is strength - Joy is love – Joy is a net of love by which you can catch souls."
